

## ARUSHA NATIONAL PARK DAY TRIP

### TOUR DETAILS:

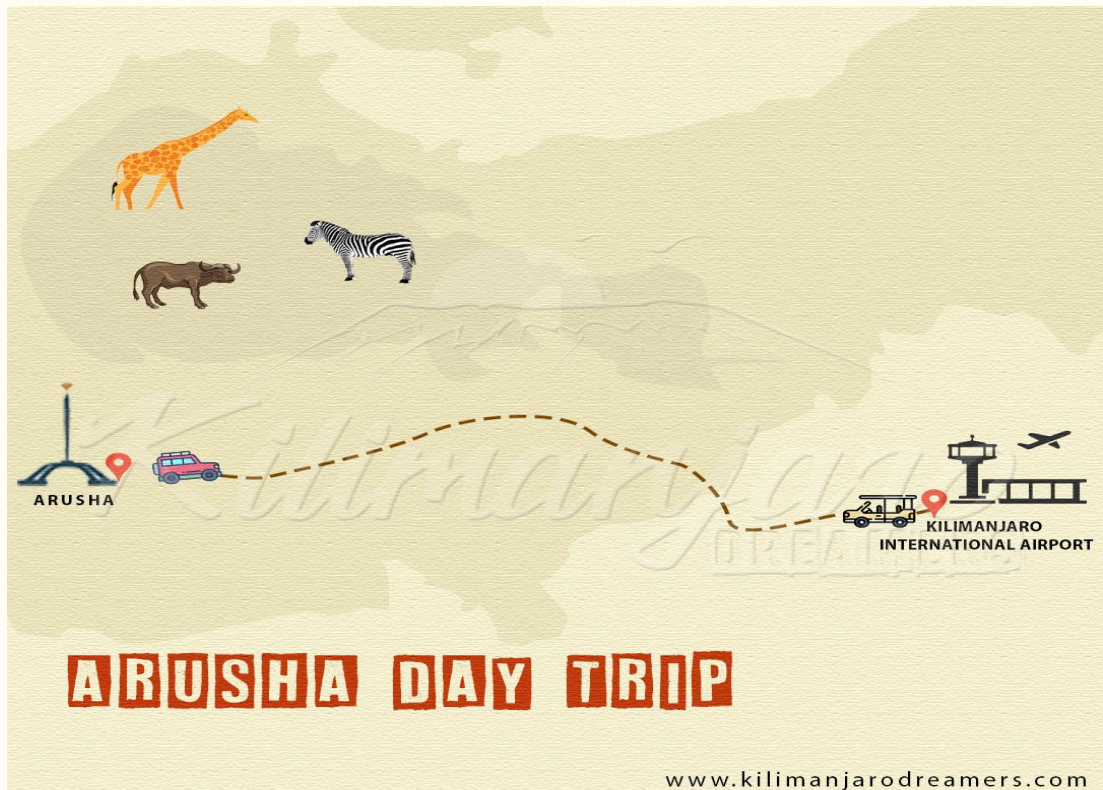

Arusha National Park is often overlooked by travelers rushing to the more famous sights of the Ngorongoro Crater and Serengeti. However, with a little time, Arusha National Park offers some lovely walking in the foothills of Mount Meru and canoeing on the Momela Lakes, plus gentle game drives. If you have the time it is well worth a day or two. There is a range of activities to do in Arusha National Park. This includes walking safaris which are always accompanied by a ranger and last for a maximum of four hours, during which you would stop for a break at one of the park's lovely picnic sites. You can also explore the far reaches of the park by vehicle, taking in some of the lovely views and keeping an eye out for wildlife. Another great activity here and one not found in other safari parks in Tanzania is a canoeing safari which allows you to explore the Momela Lakes.

### **Itinerary (Day by Day):**

In the morning, we will collect you from your hotel in Arusha and take you to the Arusha National Park. The park has an incredible variety of fauna and flora, which cannot fail to impress. Buffaloes, waterbucks, giraffes, warthogs, zebras, and baboons can be seen all year round as well as many different bird species. At the Momella Gate, an armed ranger will be waiting for you to accompany you on the walking safari that will give you the chance to experience the wildlife up-close. Only a few other national parks in Tanzania give you such an opportunity and it is something that should not be missed. Lunch will be taken at a picnic place and in the afternoon, you will continue your tour in the safari vehicle through the Arusha National Park. After plenty of time allocated for you to observe the wildlife, we will take you back to Arusha.
