

## NGORONGORO DAY TRIP

### TOUR DETAILS:

Ngorongoro crater is the largest intact caldera covering a 310-kilometer square, 600 meters deep, and 20 kilometers across. It is one of the breathtaking natural wonders of Tanzania. It is a place within the Ngorongoro conservation area where man and wildlife come directly into contact. The crater serves as a habitat for a number of species of plants and animals found inside the crater. However, as one of the world's most astonishing and renowned natural wonders, Ngorongoro Crater does get busy, and at times very busy. Due to the crowds, we recommend a two-night stay only here, then moving on to the Serengeti for a quieter, more private safari experience.

## Itinerary (Day by Day):

At 6. am early in the morning, be ready for a pick up from your hotel or from your stay in Arusha town, your driver-guide will collect your picnic lunches, drive 190 km on the tarmac road to Ngorongoro Conservation entry gate. From the gate, drive to the Crater Rim and spend few minutes for an awesome view of the Crater from the top, descend into the crater floor for a day game drives. Ngorongoro Crater is one the largest intact caldera in the world and one of the most spectacular sights in the whole of Africa. All the BIG FIVE Rhino, Lion, Leopard, Buffalo, and Elephant live in this wonderful caldera, others are Zebra, Hippo, Wildebeest, Hyena, and more birds includes flamingos on the Soda Lake, Geese, Storks, Vultures, and more other bird families.

Your picnic lunch will be served in the Crater picnic site at Ngoitokok swamp, a Hippo pool, after lunch proceeds with afternoon game viewing. At 1500 hrs ascend the Crater and drive back to Arusha.
